TSC VIDEO LIBRARY

Come hear Dr. Catherine Shainberg discuss how we can access the Divine gifts of dreams and imagery —the tools of prophets and visionaries— to transform our lives.

Catherine Shainberg, Ph.D. is an internationally renowned psychologist, teacher, and award-winning author, whose work integrates ancient wisdom and teachings with modern Western knowledge and techniques to catalyze creative manifestation in all areas of life, including personal, professional, communal, and global.

Her practice draws on the ten years of study with the kabbalist, mystic and teacher Colette Aboulker-Muscat, whom followers believe to be the 20th century representative of the Merkabah school of early Jewish mysticism, a contemplative tradition that descends from Isaac the Blind and Jacob Ben Sheshet in the 13th century, as well as her graduate studies in the arts and psychology at the Sorbonne, NYU, and the American International College.
